

Nursery to Reception- Transition Document

Our Ethos:

We encourage our youngest children to be respectful, to be responsible, to have courage, to believe in hope, justice, compassion, integrity and to be wise. We pride ourselves in having high expectations and having passionate, caring and patient Early Years practitioners in charge of delivering our Early Years Curriculum.

The move from an independent preschool setting to a Nursery within a school marks the start of your child's formal educational experience. We endeavor to make this transition as seamless and positive as possible and will work in coalition with you to make sure your child feels safe, secure and happy making this change and as a result, settles in well.

During our final term in the Summer the children will learn more about their feelings as they become older and how they need to prepare for the next stage of their journey to Reception. We shall talk about new Reception classes, new Reception teachers, having lunch at school and being at school for a full day and not just a half day session.

Our topic lends itself to a range of themes, morals and life experiences for us to explore and discuss.
